

All the roads around Stedham are very narrow with few passing places. To help you avoid meeting other parents coming the other way, we've worked out a one way system. However, both directions still need to use Tote Lane so please drive slowly and be considerate to other traffic.

To Stedham

- Follow the A272. At the mini roundabout in Midhurst take the A272 signposted to Petersfield
- After about a mile, pass the Half Moon pub on the right and then continue to the right turn signed Woolbeding, Redford and Linch.
- Follow the road across the narrow river bridge and into Woolbeding.
- Ignore the turn to Easebourne and continue ahead on Brambling Lane which is a single track road.

- Watch for the Stedham sign as you round a bend and turn left into Stedham Lane. After the crossroad sign turn right just before the main junction. This is Tote Lane, a no through road and even narrower than the road you have been on so far.
- Follow this road between its high banks with few passing places. After a wooded section you will see Stedham Campsite on the left. On Friday we will hopefully have our banner on the fence. Go through the gate and continue ahead down the driveway to the campsite. Parking is on the grassed area at the end of the track on the right hand side. Park there and then carry your gear down the field to the tents

From Stedham

- Leave the camp site and turn right into Tote Lane. Follow the narrow road down to a junction.
- Turn right and then bear round to the left following the sign to Stedham when you see the black and white signpost on a triangle of grass.
- Continue ahead down Stedham Lane. It starts off very narrow so you'll be grateful that the parents going to the site are not coming this way. Eventually the road widens and you cross a long, narrow river bridge to enter Stedham village.
- Ignore the turnings and continue along The Street. After leaving Stedham village you will come to a T junction with the A272. Turn left towards Midhurst and retrace your journey back through Midhurst and on towards Petworth.

Satnav

The nearest postcode for satnav purposes is GU29 0PY which takes you just south of the site on Tote Lane
